Proposed Road Network and Circulation Improvements:
1. Restrict automobile access on the Central Campus.
2. Establish a “people mover” corridor that connects Central Avenue with Lomas Boulevard.
3. Cap parking on Central Campus and provide accessible short-term parking.
4. Reconfigure Yale Boulevard to function as a primary gateway to the north side of the Central Campus.

Open Space and Pedestrian/Bike Circulation:
5. Improve the pedestrian/bike paseo between the dorms and west of University Blvd.
6. Renew the Duck Pond area with new fixtures, pathways, and amenities.
7. Identify clear bicycle paths and lanes on Redondo and Campus Drive.

Proposed Facilities Improvements:
8. Improve bicycle and pedestrian entrances at Vassar/Lomas, Terrace/Central, and Lomas/Buena Vista.
9. Create a more defined edge along segments of Central Avenue, and Lomas Boulevard.
10. Prioritize academic expansion on remaining infill sites, such as the reservoir site, in the academic core of the Central Campus.
11. Construct a multi-disciplinary research facility on the Central Campus.
12. Increase housing on the Central Campus to increase the number of undergraduates living on campus.
13. Develop a student-centered recreation center in a location accessible for students.
14. Redevelop themed student housing along Mesa Vista.
